
THE FLEXI TAP INSTRUCTIONS

ASSEMBLY

- 1) Spear body
- 2) Gas cover
- 3) Tap
- 4) Hose Clamps
- 5) Tap Hose
- 6) Beer Dip Tube

ASSEMBLY

1) Attach dip tube to spear body (leave this off if you just want to use the tap to store homebrew by running CO2 through keg tap to replace oxygen)

2) Attach tap hose to spear body and clamp

3) Screw in gas canister here and replace cover

4) Clamp tap to tap hose

5) Screw spear body into keg

6) Hold tap over glass, and press lever to open tap

7) press gas discharge button in short bursts to dispense beer
